A UNIQUE INTERPRETATION CENTRE IN THE REGION!

Opened in 2017, la Maison de la Nature et de l'Environnement houses a 200m² exhibit space that will immerse you in the archipelago’s natural assets.

AN EXPERIENCE LIKE NONE OTHER!

Engage your senses as you touch and feel pelts from forest animals, breathe in the aroma of local flora, encounter the archipelago’s inhabitants through film, and get up close with insects from the islands’ undergrowth.

“A fun and professional display, beautiful photos that make you want to lace up your hiking boots, and a warm glimpse into life on the archipelago!”

Elisa and Chris, Québec
